GAT-X105E

DESCRIPTION: GAT-X105E
NAME: NOIR STRIKE
WEAPONRY: TYPE AGM-X035
FULL HEIGHT: 17.72 METERS
WEIGHT: 90.5 TONS
INTERNAL ENVIRONMENT: SINGLE STANDARD COCKPIT
X106E Head: According to the client the Phantom style requirements of pain, for the specialized close combat operation, structure changes. Appearance, the most significant difference is the middle of the panel cooling hole location change, placed in the middle of the panel of the hollow hole, while in the assigned to the left and right sides. This is because, due to machine gun "Porcupine Array" has carried on the improvement of the elastic path as a result of changes and new type with strengthening integrated sensor system layout changes, the necessity of pipe heat treatment processing. Combining design "Porcupine Matrix for Elastic Path Changes" of corresponding due to the change of ammunition improvement the velocity of the bullet for measures in section shape, from the original simple shape change cooling hole linkage vents of complex shapes and stratification armor layer, the new set up "Diamond" design. Improve the ability to adapt in wartime. At the element and installed angle head shape and high straight type will upgrade for a switch to communication system. The purpose is to improve in combat with friendly aircraft data communication.
